

KENTUCKY DEPARTMENT OF EDUCATION

STAFF NOTE

Action/Consent Item:

District Facility Plans: Clay and Graves County School Districts (**Graves County Hearing Report under separate cover**)

Applicable Statute or Regulation:

KRS 157.420, KRS 157.622, KRS 157.620, 702 KAR 1:001

Action Question:

Should the Kentucky Board of Education (KBE) approve the proposed District Facility Plans (DFP) for the above listed Kentucky school districts?

History/Background:

Existing Policy. In accordance with 702 KAR 1:001, each district must develop a local DFP at the completion of a four (4) year cycle or at the completion of an eight (8) year cycle (maximum) if the district applies for and is granted a waiver. This process provides a District Facility Plan that contains an assessment of the school district's attributes and operations including the district profile, demographic information, facility conditions, and finances (cost of delivery of services).

Local school districts are required to select a Local Planning Committee (LPC) to develop a District Facility Plan (DFP) outlining capital construction priorities.

The LPC, by virtue of its makeup, encourages both community involvement and diversity of ideas. The LPC recommends a DFP to the local board. The DFP submitted to the Kentucky Department of Education (KDE) reflects the final decision of the local board of education.

Information reviewed in developing the DFP provides the LPC with a comprehensive view of program and facility needs required to provide an equitable educational opportunity. KDE staff presents the process to be undertaken by the district in an orientation session. Information for review is then developed by the LPC and its consultants.

Each district's proposed DFP was recommended by the LPC and approved by the local board of education. KDE staff certifies that the plans presented are in accordance with 702 KAR 1:001 and, to the best of our ability to determine, are in compliance with the appropriate steps as follows: (1) LPC selection process documented; (2) review of proposed district facility plan for educational programs and curriculum, demographics, facility evaluations, adequacy of financial plan, and adequacy of square footage; (3) public forum notification through news media; (4) local board public hearing conducted; (5) local public hearing conducted with appointed hearing officer; and (6) plan submitted for KBE approval.

We have also reviewed the non-resident agreements and the number of “out of district” students in each school district affected. (This information is enclosed as an attachment herein.)

Due to the Graves County Board Chair being out of the country, the approval of the hearing report by the local board cannot occur until that person returns. The approved report will be forwarded to the Kentucky Department of Education by the district once the local board takes action and sent to the Kentucky Board of Education under separate cover from the Agenda Book prior to the August meeting.

Staff Recommendation(s) and Rationale:

Staff recommends that the KBE approve the proposed District Facility Plans for the Clay and Graves County School Districts. These plans meet the requirements of 702 KAR 1:001.
